Description

This high quality and easy to use solvent based cleaner is suitable for most types of white and veneered PVCu frames, sills, boards, panels and even garden furniture.

Its powerful cleaning action removes practically all known contaminants such as grease, finger marks, labels etc. without causing any damage to the plastic surface.

As well as removing ingrained dirt it also helps to restore surface colour.

Directions for use:

Application:

- DO NOT SMOKE WHILST USING THIS PRODUCT!
- Use heavy gloves to protect hands from solvent
- Soak a clean absorbent cloth with SkilledBuild PVCu Solvent Cleaner and rub the contaminated areas, repeat process keeping the cloth well wetted with cleaner.
- 'Scotch Pad' abrasive may be used on damaged areas of PVC after the user has ascertained that the change in surface appearance is acceptable.
- Polish up the cleaned surface with a clean dry cloth.

Disposal of Containers:

- Do not leave empty containers where residue could be harmful to children, animals or the environment.
- Replace lids and remove any containers to a central disposal point in accordance with local regulations.

PVCu Solvent Cleaner Information Sheet

Important Information

SkilledBuild is committed to development and supply of quality products and may substitute or change product branding or specification or technical data without notice. Always check for latest information.

All information provided is based on practical tests & published data and is intended to guide a competent DIY user or contractor in the typical use of products for minor works but is without guarantee. If a failure of the works will be costly to repair or hazardous then design & execution must be undertaken by competent persons. Further advice should be sought from a suitably qualified advisor. Skilled Build may be able to answer simple product enquiries.

Since application and working and user competence is beyond our control, no liability of the supplier can be derived from the contents of information sheets or other general information provided. Any statements made beyond the contents of SkilledBuild's website or product labels must be confirmed in writing by the supplier.

Health and Safety:

- Highly flammable. Avoid heat and sources of ignition. Do not smoke.
- Avoid eye contact. In the event of contact irrigate eyes immediately with plenty of cold, clean water for 15 minutes and seek medical attention.
- Do not ingest. In the event of ingestion, do not induce vomiting, drink plenty of water and seek medical attention.
- Thoroughly wash hands with soap and water or a proprietary hand cleaner after use.
- Keep out of reach of children
- Some people are more sensitive to chemical products than others. If irritation occurs discontinue use.
- See separate material safety data sheet for more in depth information.
