

Ready Mixed Filler

Safety Data Sheet

(17th April 2012)

(version 1)

Product Identification

Trade Name: Ready To Use All Purpose Filler.
Application: For use as a general purpose filler.

Hazardous Ingredients

Name	EC No.	CAS-No.	Content	Classification
1,2-Benzisothiazol	220-120-9	2634-33-5	<1%	Xn; R22 R43 Xi; R38, R41 N; R50

Composition Comments: A specially formulated filler containing natural minerals, calcium magnesium carbonate, rheology modifier organic polymers and in can preservatives. This product is not classified as dangerous according to EC and UK legislation.

Hazard Identification

Hazard: Not regarded as a health or environmental hazard under current legislation.
Environment: The product is not expected to be hazardous to the environment.
Physical and Chemical Hazards: When handled correctly, undamaged units represent no danger.
Human Health: The hazardous properties of the product are considered limited. May cause minor irritation on skin contact. The hazardous properties of the product are considered limited. However, the product contains a small amount of sensitising substance which may provoke an allergic reaction among sensitive individuals.

Emergency and First Aid

After Eye Contact: Make sure to remove any contact lenses from the eyes before rinsing. Promptly wash eyes with plenty of water while lifting the eye lids. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues.

After Skin Contact: Remove affected person from source of contamination. Remove contaminated clothing. Wash the skin immediately with soap and water. Get medical attention if any discomfort continues.

After Ingestion: NEVER MAKE AN UNCONSCIOUS PERSON VOMIT OR DRINK FLUIDS! Rinse mouth thoroughly. Get medical attention if any discomfort continues.

After Inhalation: Move the exposed person to fresh air at once. Rinse nose and mouth with water. Get medical attention if any discomfort continues. Due to the small packaging the risk of inhalation is minimal.

General Information: In all cases of doubt or when symptoms persist, seek medical advice.

Safety Data Sheet

(17th April 2012)

(version 1)

Fire Fighting Measures

Extinguishing Media:	This product is not flammable. Use fire-extinguishing media appropriate for surrounding materials.
Unusual Fire and Explosion Hazards:	No unusual fire or explosion hazards noted.
Specific Hazards:	Not relevant.
Special Fire Fighting Procedures:	No specific fire fighting procedure given.
Protective Measures in Fire:	Selection of respiratory protection for fire fighting: follow the general fire precautions indicated in the workplace.

Toxicological Information

General:	This product has low toxicity. Only large volumes may have adverse impact on human health.
Eye Contact:	May cause temporary eye irritation.
Skin Contact:	Prolonged contact may cause redness, irritation and dry skin.
Inhalation:	Unlikely to be hazardous by inhalation because of the low vapour pressure of the substance at ambient temperature.
Ingestion:	May cause discomfort if swallowed.
Health Warnings:	No specific health warnings noted.
Medical Symptoms:	May cause discomfort if swallowed. Prolonged or repeated exposure may cause: dry skin.
Medical Considerations:	Skin disorders and allergies.
Target Organs:	Eyes. Skin.

Ecological Information

Ecotoxicity:	Not regarded as dangerous for the environment.
Bioaccumulation:	No data available on bioaccumulation.
Degradability:	The product is expected to be biodegradable.
Mobility:	The product contains substances, which are water soluble and may spread in water systems.
Acute Fish Toxicity:	The addition of large amounts into watercourses may cause the pH to rise and may therefore be harmful to aquatic life in some circumstances.
Water Hazard Classification:	WGK 1 Self assessment.

Stability and Reactivity

Stability:	Stable under normal temperature conditions.
Conditions to Avoid:	Avoid excessive heat for prolonged periods of time.
Hazardous Polymerisation:	Will not polymerise.
Hazardous Decomposition Products:	No hazardous decomposition products.

Ready Mixed Filler

Safety Data Sheet

(17th April 2012)

(version 1)

Physical and Chemical Properties:

Physical Form:	paste
Colour:	White/ off-white
Odour:	No characteristic odour
Solubility:	Soluble in water.
Boiling Point °C:	100
Relative Density:	1.680
pH-Value, Concentrated Solution:	7.6-8.6
Flash Point °C:	Non-flammable
Viscosity:	3200-3800 (Helipath TF/10)

Exposure Control/Personal Protection

Exposure Controls: Protective Equipment:

Name	Std	TWA - 8 hrs	STEL - 15 min	Notes
1,2-BENZISOTHIAZOL-3(2H)-ONE	WEL	2 ppm		

WEL= Workplace Exposure Limit

Engineering Measures:	Provide adequate ventilation.
Eye Protection:	If risk of splashing, wear safety goggles or face shield.
Respiratory Protection:	Whilst using the uncured product there are no specific recommendation for the use of respiratory protection, however when sanding the cured product it is recommended that a P1 dusk mask is worn.
Hand Protection:	For prolonged or repeated skin contact use suitable protective gloves. Nitrile gloves are recommended.
Skin Protection:	Wash hands after use and wash off any filler that comes into contact with skin before it sets.
Hygiene Measures:	Wash at the end of each work shift and before eating, smoking and using the toilet. Wash promptly if skin becomes wet or contaminated. Use appropriate skin cream to prevent drying of skin.
Other Protection:	Wear general workwear.

Accidental Release Measures

Personal Precautions:	Follow precautions for safe handling described in this safety data sheet.
Environmental Precautions:	Collect and dispose of spillages as indicated in this document.
Spill Clean Up Methods:	Scrape up uncured product and place into a container for disposal. Alternatively allow to set hard and scrape up. Wash contaminated area with water.

(version 1)

Transport Information

General:	The product is not covered by international regulation on the transport of dangerous goods (IMDG, IATA, ADR/RID). No transport warning sign required.
Road Transport Notes:	Not classified.
Rail Transport Notes:	Not classified.
Sea Transport Notes:	Not classified
Air Transport Notes:	Not classified

Handling and Storage

Usage Precautions:	Good personal hygiene is necessary. Wash hands and contaminated areas with water and soap before leaving the work site.
Usage Description:	Keep out of reach of children. Apply 'common sense' measures when using this product. When sand cured product avoid prolonged inhalation of dust, if it is expected that sanding will be required for long period the use of a dust mask is recommended.
Storage Precautions:	Keep in original container. Avoid storing for very long periods. Protect from freezing and direct sunlight. Store in closed original container at temperature between 5 and 25 degrees Celsius.
Storage Class:	Unspecified storage.

Waste Disposal

General Information:	The packaging should be collected for reuse.
Disposal Methods:	Dispose of waste and residue in accordance with local authority requirements. For unused and uncontaminated product, the preferred options include sending to a licensed waste contractor. Used containers can be cleaned with water and either reused or disposed of as non hazardous waste.
Waste Class:	When this product, in its liquid state, as supplied, becomes waste, it is categorised as non-hazardous, with code 08 04 10. Part used containers, not drained and rigorously scraped out and containing dried residues of the supplied coating are categorised as non-hazardous with code 08-04-10. Used containers, drained and or rigorously scraped out and containing dried residues of the supplied coating are categorised as non-hazardous waste with code 15 01 02 'Rigorously scraped out' means removing the maximum amount of product from the container by physical or mechanical means to leave a residue or contamination that cannot be removed by such means. These codes have been assigned based on the actual composition of the product both as supplied and as dried residues. If mixed with other wastes, the waste codes quoted may not be applicable.
