

PU FOAM GUN CLEANER Information Sheet

Areas of Use

- This product removes and dissolves fresh, uncured PU-foam. The can is fitted with an adapter ring which screws on to the gun. For use without the gun, the can is fitted with a spray head.
- The cleaner can's standard thread adapter fits all commonly used guns. Thorough cleaning of the internal gun mechanism is enhanced by the pressure the propellant exerts.

Key Benefits

- Good enough for the professional user.
- The active ingredients of gun foam cleaner are consistent with the materials used in the manufacture of PU foam applicator guns.
- Frequent use of gun foam cleaner maintains guns in good working order.

Description

A high strength, universal solvent cleaner that will remove PU foam from applicator guns.

Directions for use:

Preparation:

- A suitable waste container and a cloth should be at hand for disposal of waste fluids and wiping away cleaner fluid and dissolved PU foam residues.
- Remove the PU foam can from the gun.

Application:

- Use the spray head on the gun foam cleaner can to clean the adapter part and the outer body of the gun.
- Remove the red spray head from the gun foam cleaner can and carefully screw the can onto the gun. For safety reasons, the gun trigger should be pulled whilst screwing on the cleaner can. This will depressurise the gun.
- Pull the trigger to purge the gun, release the trigger and allow the cleaner to work inside the gun for approximately two minutes; then flush out the gun into a waste container. Repeat this procedure until only clear cleaner fluid comes from the gun.
- Once the cleaning procedure is completed, unscrew the gun foam cleaner can from the gun.

Disposal of Containers:

- Do not leave empty containers where residue could be harmful to children, animals or the environment.
- Replace lids and remove any containers to a central disposal point in accordance with local regulations.
- Any spillages should be mopped up immediately with an inert, absorbent material such as sand.
- Do not pierce or burn, even after use. Do not spray on a naked flame or any incandescent material.
- Completely emptied Gun Foam Cleaner cans are suitable for recycling subject to individual national rules and regulations.

PU FOAM GUN CLEANER

Information Sheet

Product Data

Packaging: Pressurised container.

Shelf Life: 12 months.

Storage: Protect from sunlight and do not expose to temperatures exceeding 50 °C.

Important Information

SkilledBuild is committed to development and supply of quality products and may substitute or change product branding or specification or technical data without notice. Always check for latest information.

All information provided is based on practical tests & published data and is intended to guide a competent DIY user or contractor in the typical use of products for minor works but is without guarantee. If a failure of the works will be costly to repair or hazardous then design & execution must be undertaken by competent persons. Further advice should be sought from a suitably qualified advisor. Skilled Build may be able to answer simple product enquiries.

Since application and working and user competence is beyond our control, no liability of the supplier can be derived from the contents of information sheets or other general information provided. Any statements made beyond the contents of SkilledBuild's website or product labels must be confirmed in writing by the supplier.

Health and Safety

- Highly flammable. In use may form highly flammable vapour-air mixture. Keep away from sources of ignition – No smoking. Do not breathe vapour and spray. Take precautionary measures against static discharges. Vapours gathering in insufficiently ventilated areas may cause flammable and noxious concentrations.
- Irritant. Use only in a well ventilated area.
- Avoid eye contact.
- Avoid prolonged contact with skin
- Thoroughly wash hands with soap and water after use.
- Keep out of reach of children.
- Some people are more sensitive to chemical products than others. If irritation occurs discontinue use.
- See separate material safety data sheet for more in depth information.

Laws and Regulations

SkilledBuild Gun Foam cleaner contains an environmentally safe propellant, which complies with the latest EU-regulations banning all CFC-propellants.

PLEASE NOTE:

- Because gun foam cleaner for applicator guns contains acetone, it may dissolve or discolour surfaces such as plastics, lacquers, coatings, paints, textiles etc. Use with extreme care and test suitability before use.
- Only fresh foam can be removed with gun foam cleaner. Cured foam can only be removed mechanically or with 'cured foam remover'. Sharp instruments must never be used on PU foam applicator guns as this may damage the protective coating
